

Lucid AfterLife

Stoner rock - Canada

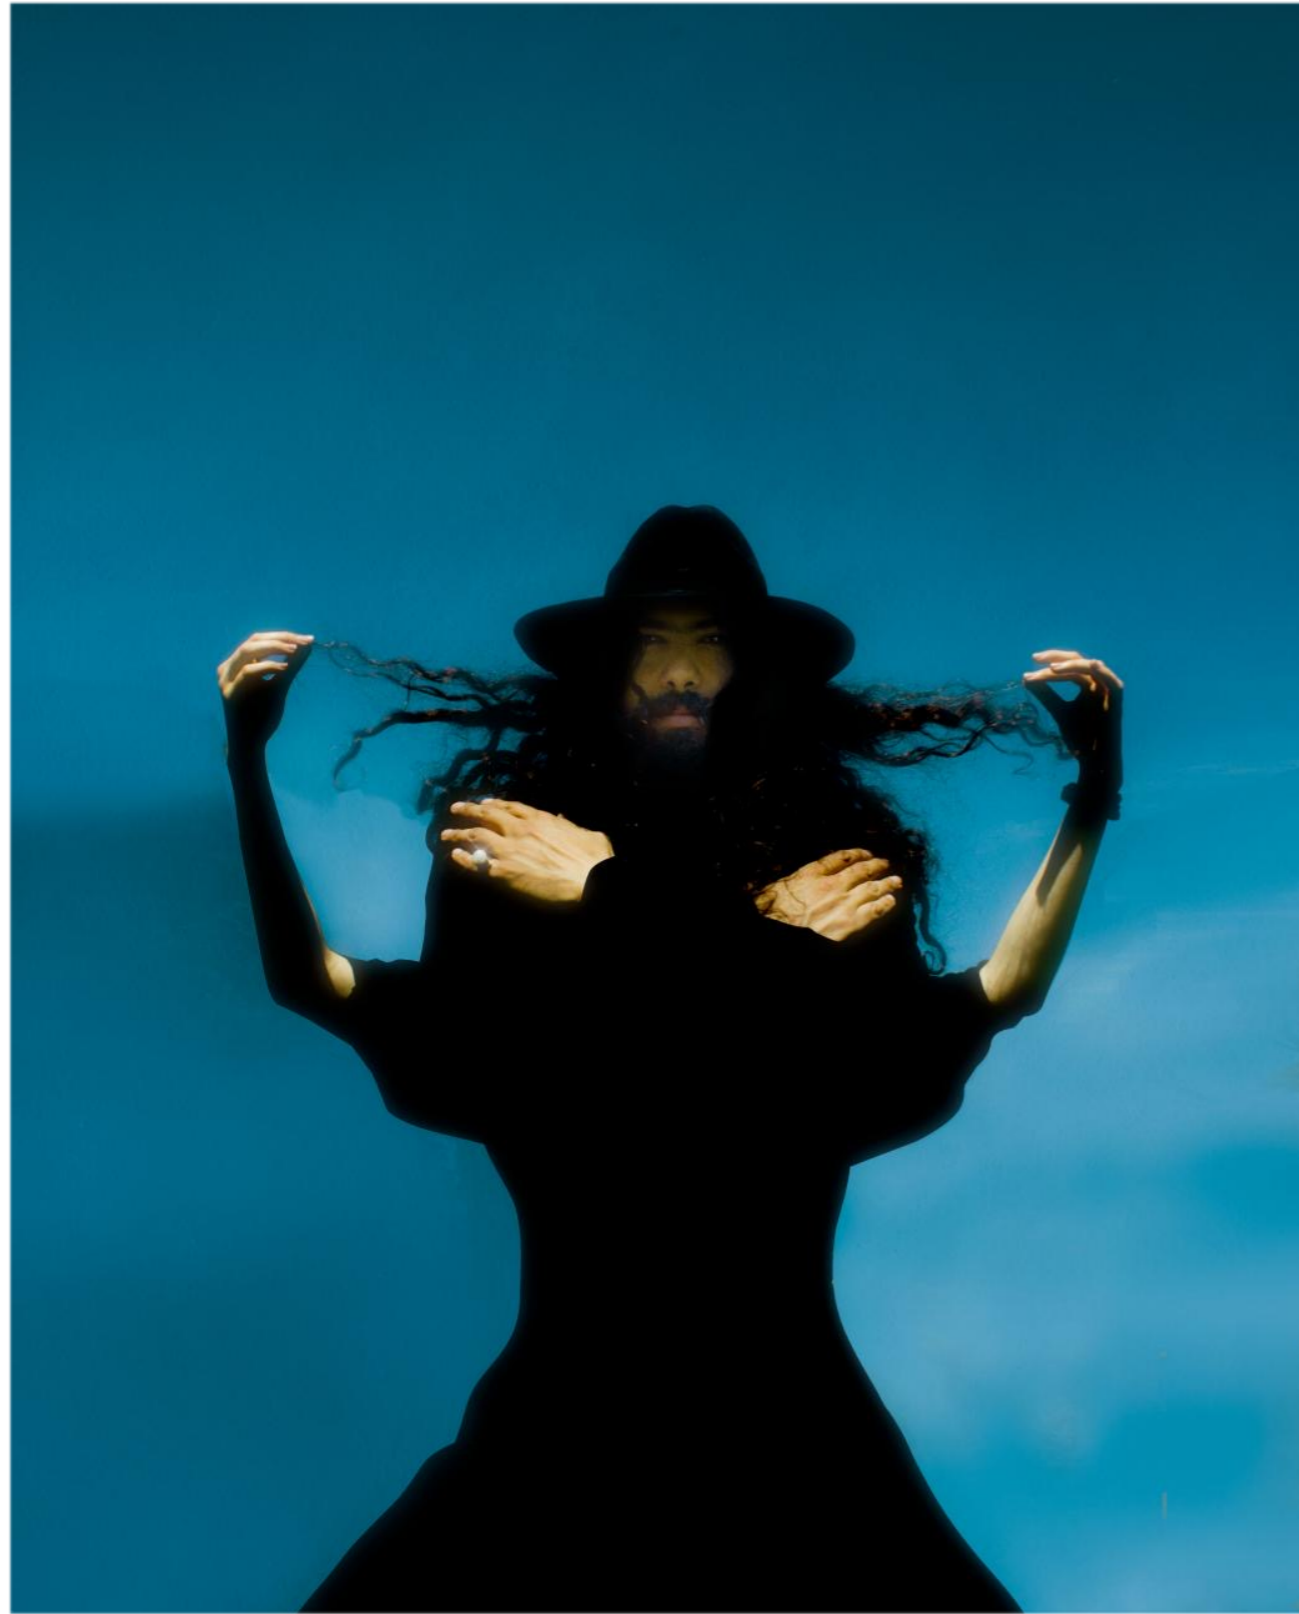

Every Lucid AfterLife song is a unique degree of initiation into its inner sanctums. Its halls vibrate with electric grooves, angelic and inspiring. Lyrically it wants to involve the listener, at its core it wants to elevate you.

Formed in 2013 Lucid AfterLife is constantly evolving record to record setting no creative boundaries to their creative designs. With a sound as eclectic as the themes within its imagination driven walls.

Hailing from Vancouver Canada, the band has been blessed with the loyal attention and support of its acolytes at home as well as enclaves abroad.

This attention allowed them to support top grade bands of all genres including Metal, Rock & Hip Hop (Ill Nino, Bobaflex, Stonebolt, Snak The Ripper, Twista & The Crystal Method to name a few).

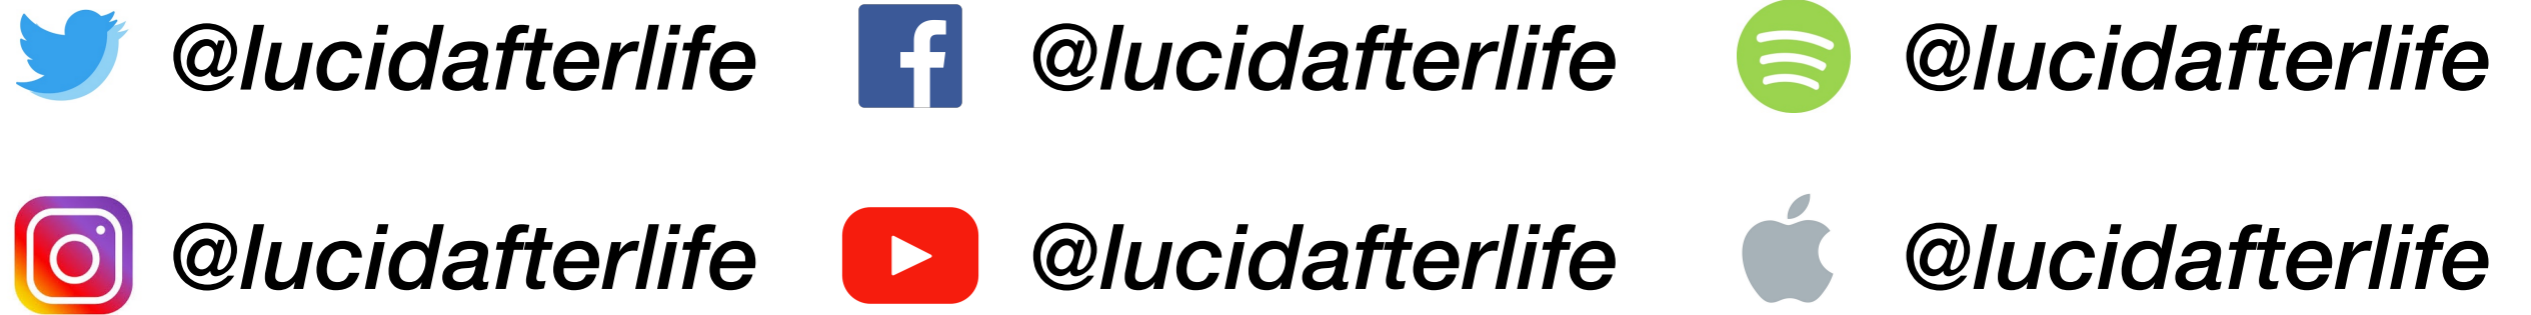

In turn this attracted top tier musicians and producers like legendary keyboardist Dave Stone (Rainbow), Hip-Hop artist Merkules and Mega producer Skip Saylor (Elton John, Eminem) to collaborate.

Having played in Canada, USA, Peru and México, Lucid AfterLife seeks to spread their Astral Space Rock message to the entire universe through its infectious live show.

Lucid AfterLife has released 4 records consisting of their debut EP “Meltdown” (2014), their self produced LP “I AM” (2015), their EP “Occult Mafia Mistress” (2016) and their latest album “Descendant” with American label Forbidden Place Records.
